

EOT is a premier provider of cutting & pressure control solutions serving the Subsea, Pressure Control, Refinery and General Fabrication markets. EOT's experience continues to help pave the way for continued successes for clients in the upstream, midstream and industrial arenas.

PREMIER CUTTING & PRESSURE CONTROL SOLUTIONS

ABRASIVE CUTTING CAPABILITIES

- Most powerful and precise slurry jet cutter on the market at 36,000 psi
- Uses 1/3 less garnet than competitors
- Air surrounded jet can cut through multi-string casings (both grouted and voided) without the need to plug and dewater
- Dual mixing units allow for near continuous operation
- Real-time nozzle tracking
- Torque and Bolting Services
- Slot Recovery and Conductor Removal
- Custom Solutions

STANDARD DIAMOND WIRE CUTTING

- Size Ranges: 4" – 96"
- Topside or Subsea
- Hydraulically operated
- Controlled from surface or ROV
- Lightweight aluminum design
- Diver / ROV Mounted
- Optional hydraulic clamps
- Continuous loop diamond wire

PLUG & ABANDONMENT SUPPORT

- API Flange Install & Removal
- Hot Tapping
- Hot Bolting
- Cold Cutting

PIPELINE SERVICES

- Cold Cutting
- Hot Tapping
- Valve Drilling
- Clean Cut & Bevel (weld prep)
- Bolting Services

ENGINEERING AND DESIGN

- Cold Cutting
- Innovative Tool Design
- Project Planning Surveys

SUBSEA REMOVAL SUPPORT

- Cold Cutting
- Hot Tapping
- Core Drilling for Rigging Points

PLATFORM REMOVAL

- Abrasives
- Cold Cutting / Diamond Wire

TOPSIDE DECONSTRUCTION CUTTING

- Small Footprint
- Versatile Applications
- Virtually Unlimited Cutting Capability
